Engineer a Better World: Super Realoes entry form

We want you to come up with an exciting and imaginative design for a new superhero gadget that embraces engineering and technology to be in with a chance of it being brought to life as a prototype!

Your entry will be judged on:
- **Originality** – how original is the idea?
- **Feasibility** – how feasible is it that the idea is able to be turned into a real-life prototype?
- **Creativity** – how creative is the idea?
- **Engineering** – what engineering processes will be used to create the idea?

Your gadget will help make the world a better place to live or be a piece of assistive technology that can improve someone’s life.

How about a gadget that captures the sun’s energy or zaps carbon emissions? Or even an exo-suit that helps someone become more mobile – we want to see your most creative and super-charged inventions!

**How to enter!**

Print the form and draw your ‘Super Realo’ gadget in the space provided. Ask your caregiver to fill out the supporting information and email it back to SuperRealoes@theiet.org

If you don’t have access to a printer, don’t worry! Simply draw your gadget and explanation on a piece of paper, take a photo and send as above with the supporting information.
